

I am writing to express my desire that K-LOVE not be forced off the air in lieu of implementing LPFM stations in this area.

K-LOVE is an inspirational and family-friendly radio station that serves this community greatly. It is the only station that I listen to because I am guaranteed that I will not be subjected to any sort of vulgarity that may be broadcast on the radio. It also offers opportunities for me to become aware of local concerts or events that are available to me in the Memphis area.

If K-LOVE were to be displaced by an LPFM broadcaster, there is no guarantee that this community will benefit from a family-friendly radio station. Many listeners in this area, including myself, would be extremely disappointed if K-LOVE were to be forced off the air in the Memphis area. K-LOVE is an integral part of life for many in the Mid-South, and many would be devastated to have it removed.

K-LOVE is in the public's best interest, I believe. By offering family-friendly, inspirational programming and music, they are able to bless all those that listen to them. Many people rely on K-LOVE to provide inspiration needed to live each day. K-LOVE is a great service to all who listen.

Please do not allow these LPFM stations to infiltrate this area, possibly displacing K-LOVE. This station is too valuable to me for you to consider allowing this to happen. I would refuse to listen to any programming on the radio if K-LOVE were to be removed, as most stations in operation today air programming that is non-family oriented.

Thank you for your consideration of this correspondence.
